May, 1995

Dear Buyer:

Each year as another growing season gets underway, we have the perfect opportunity to tell you about our great Massachusetts grown products.

We know that the growers listed here will provide you fresh excellent produce and horticultural crops. They take great pride in what they grow and put in countless hours of planning and labor to bring you the finest products available.

We hope you will call on us if you are unable to locate a ready source of product. We also want to hear from you with any comments or suggestions concerning the products you purchase.

This year, we are listing more "extended season" crops. Another addition is our "prepared produce" listing. The alphabetical list of farms and growers in the back of the directory is a handy cross reference.

Our Department is advocating the expansion of Integrated Pest Management (IPM) techniques to lower the use of pesticides statewide. We are a leader in IPM and the first state to offer an IPM certification program.

If we can help you in obtaining point-of-purchase materials or if you would like other product listings, please phone the Bureau of Markets at (617) 727-3018.

Your purchase of Massachusetts crops helps keep our agricultural industry healthy, contributes to our local economy and helps preserve open space. Thank you very much.

Sincerely,

A handwritten signature in dark ink, appearing to read "Jon Healy".

The fifth edition of The Green Book was produced by the Bureau of Markets staff, as well as the many farmers who provided information on their operations.

This publication lists Massachusetts producers of agricultural products that wholesale to retailers. These businesses responded to a mailed questionnaire and telephone inquiries; therefore, not all Massachusetts growers are listed. The production figures listed are estimates provided by the grower. Every effort has been made to maintain accuracy and completeness. Please notify us of any inaccuracies or omissions.
